## **On Israel and European countries**

*What we are now witnessing is far more serious than the two intifadas and the attacks on Gaza - it is typified by the coming together of Palestinians on both sides of the erased Green Line - erased by Israel. Israel has started a fire it may not be able to extinguish.*

**Gisha calls on Israel to immediately stop the illegal use of force against civilians in Gaza and the use of its control over Gaza's crossings and sea space to cause deliberate harm to residents of the Strip**

*Erez Crossing, the pedestrian crossing between Gaza and Israel, has been closed almost hermetically by Israel since March 2020, under the pretext of efforts to curb the spread of COVID-19. As hostilities commenced, Israel's Coordinator of Government Activities in the Territories **announced** that travel via Erez would only be permitted for the most "exceptional and humanitarian" of cases, but the spokesperson of the Palestinian Health Ministry in Gaza **said yesterday** that not even patients seeking life-saving medical treatment outside the Strip were allowed to pass through Erez.*

*On May 10, Israel closed Kerem Shalom Crossing, Gaza's main commercial crossing, to movement of goods, blocking the entrance of humanitarian aid and fuel destined for Gaza's power plant. .... The United Nations warned that unless fuel is allowed to enter, the supply of electricity will stop completely by this weekend.*

**Gisha calls on Israel to stop the illegal, disproportionate use of force against Gaza's civilian population, to refrain from further violation of residents' human rights, open Erez and Kerem Shalom crossings, and remove the ban on access to the sea.**
